### 911 Outages/Remote/Community Isolations:

- None reported.

### Service Interruptions:

- None reported.

# **WEATHER OF CONCERN**

## **Weather of Concern**

### **Northern California**

- A series of spring storms will impact the region this week. The first system will arrive late Saturday afternoon through Sunday which will provide light valley rain and mountain snowfall.
- Slushy snow accumulations for roadways possible above between 6,500-7,000' Saturday evening with snow levels rising into Sunday.
- Light to moderate rainfall is possible for lower elevations with accumulations generally under a tenth.
- The pattern remains active through the week as the next system provides another round of mountain snow and valley as early as Tuesday across the Sierra and western Nevada with the potential for a more organized and wetter storm by Wednesday.

### **Southern California**

- A warm and moist Pacific storm system will affect southwestern California this weekend. Rain is expected to spread across the region through the day on Saturday. Light to moderate rain will cover much of the region Saturday night and Sunday morning before tapering to showers Sunday afternoon.
- It looks like there is the potential for local heavy rain at times especially along south-facing slopes. Snow levels will be high, near or above 8,000 feet.
- Gusty south to southeast winds are expected at times mainly over portions of San Luis Obispo and Santa Barbara Counties as well as the mountains of Ventura and Los Angeles Counties.
- Potential impacts will include a small chance of mud and debris flows in and below recent burn areas, slick roadways, and urban and small stream flooding.

# WEATHER SYNOPSIS BY REGION

## **NORTHERN CALIFORNIA**

The wet unsettled weather pattern will continue for the next week and beyond. Snow levels will remain about the same Friday and Friday night as the showers diminish. Another Pacific low pressure system will target Central CA Saturday and Sunday. Scattered rain showers will spread over the southern half of the Northern California region. The remainder of the region will be partly cloudy with above normal temperatures. High pressure moving overhead on Monday will bring partly cloudy and warmer than normal conditions region-wide. A few mountain showers may linger from the weekend system.

A stronger system will arrive on Tuesday. S-SW winds and clouds will increase during the day, and the first wave of precipitation will move onshore by midday. Snow levels will initially be above 6000 ft, but they will drop to 2000-4000 ft on Wednesday as colder air moves in. Wet unsettled weather from this system will likely persist through the end of the week.

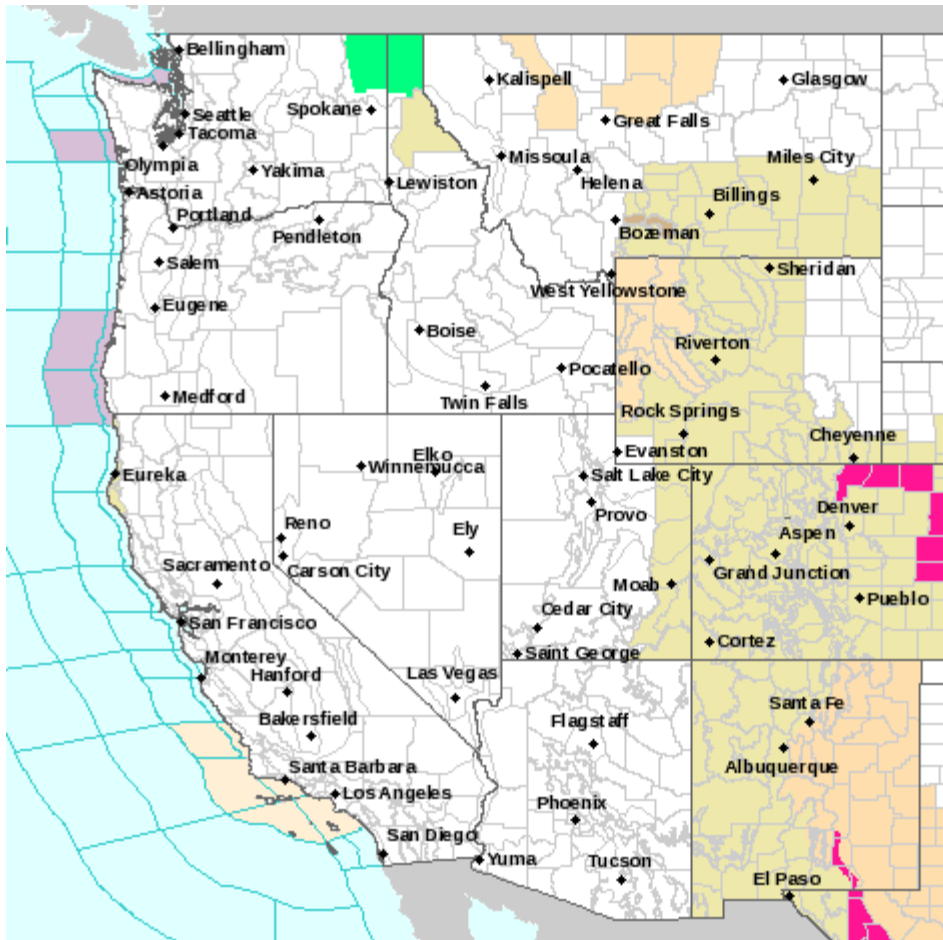

## **SOUTHERN CALIFORNIA**

A few light showers continue to dot the central coast region this morning. Only a few hundreds of an inch are expected before the precipitation comes to an end by the afternoon. The rest of the area will see partly cloudy and slightly cooler temperatures today. Onshore pressure gradients will generate west-northwest winds of 20-30 mph across the Kern County Mountains into the deserts, the Banning Pass and the central coast region this afternoon. Saturday, a weak storm system will approach the area, resulting in widespread, light precipitation. The storm will produce gusty south and southwest winds of 15-25 mph during the afternoon. This will serve to focus the higher rainfall totals across San Luis Obispo to western Los Angeles County where 1-2" of rain will be possible. Up to 3" may occur across south aspects of Santa Barbara and Ventura Counties, but fortunately, rainfall rates should stay under a quarter of an inch per hour. The snow levels will be above 8,000 feet. The rest of the area will see 0.10-0.25" of rainfall before the precipitation winds down Sunday afternoon. Next week, a large and cold low pressure area from the Gulf of Alaska will slowly approach the area. A few bands of light rain will be possible in Central California Tuesday before the main storm system arrives next Wednesday night or Thursday. This system will be more dynamic and may be capable of producing more intense rainfall and even some thunderstorm activity late in the week. Look for the snow level to drop to around 5,000 feet by Friday. The Sierras, in particular, will likely receive widespread, beneficial precipitation from the storm and most other areas should at least see a wetting rain. Temperatures will drop to well below normal readings with highs in the 30s in the mountains to the lower 60s in the valleys by next Thursday or Friday. Cool, showery weather with strong northwest winds may linger into the weekend of the 17th. No offshore winds are expected through the period.

# Cal OES LAW ENFORCEMENT MISSIONS

## Cal OES Law Missions

- **2018-LAW-45579, 03/08/18 at 1028 hours,** The Sutter County Sheriff's Office is requesting 50 Type II searchers and 3 HRD K9 teams for a search in the unincorporated area of East Nicolaus in the northern portion of Sutter County. The request is for two operational periods starting at 0500 hours on 3-9-2018. The Cal OES LEB K9 Coordinator was able to fill the request for the K9 teams. Nevada County Sheriff's Office will assist with the incident action plan and assignments for the search. Butte, Glenn and Yuba Counties will assist with the remaining resources. The search is to assist LAPD with a missing person case. **Mission Ongoing.**
- **2018-LAW-45569, 03/07/18, 1602 hours,** The Mendocino County Sheriff's Office (MCSO) is requesting SAR resources to search for a missing female in Covelo, Ca., believed to be a victim of domestic violence. The suspect in this case is in custody however she is still missing. The search is scheduled for Sunday, 11 March. Resources to be on site at 0900 hours at the Covelo Cal Fire Station at 77251 Highway 162 in Covelo Ca. The requested resources include 75 Type II ground pounders (including MCSO personnel), armed LE escorts with marked vehicles, 4 HRD K9 teams, 24 Nano tracking devices, a UH72 helicopter for aerial searching, and a Harrier mobile hot spot. The ground searchers and LE escorts have been secured from Lake, Marin, Napa, San Mateo (BAMRU), and Sonoma counties. The HRD K9's were secured by the Cal OES LEB Canine Coordinator. The CNG approved the request for the UH-72 (Lakota), the nano tracking devices and the Harrier hot spot, along with support personnel. This will be a single day search and all out of county resources will be released Sunday afternoon. **Update: 03/08/18, Only 3 K9 Teams are available for the search 3/11. MCSO advised. Mission Ongoing.**
- **2018-LAW-45559, 03/07/18, 1500 hours,** As the Region VI Regional Mutual Aid Coordinator, the San Bernardino County Sheriff's Department is requesting the California National Guard (CNG), 9<sup>th</sup> Civil Support Team to assist with the security of the NASCAR Races in Fontana. This event will take place from 3/15/18 thru 3/18/18 . The CNG has accepted the mission. **Mission Ongoing.**

# Cal OES MISSION TASKING
